

38TH ANNUAL CONFERENCE

Connecticut Infectious Disease Society

Thursday, October 28, 2021
Virtual Conference

Welcome to the 38th annual conference of the Connecticut Infectious Disease Society (CIDS)! In order to prioritize the health and safety of our members, guests and vendors, the Executive Board of CIDS made the difficult decision to move this annual conference to a virtual platform. We are thrilled you are with us today on Zoom and we look forward to an in-person meeting in May of 2022.

The aim of the annual conference is to promote knowledge and clinical expertise. Specifically, this year's conference is designed to address knowledge and performance gaps for infectious disease physicians, clinicians, medical students, and pharmacists.

We have created an agenda that offers a variety of exciting and timely topics and truly hope that you have an enjoyable and thought-provoking day.

- Jack Ross, MD, FIDSA, FSHEA
- David B. Banach, MD, MPH, FIDSA

Who We Are

Theratechnologies is a biopharmaceutical company established in 1993 and focused on the development and commercialization of innovative therapies addressing unmet medical needs in HIV, oncology and hepatology.

What We Bring to HIV

A passion for the HIV community which led to the first and only long-acting monoclonal antibody to block HIV replication and a novel treatment for patients with a metabolic condition that significantly impacts their quality of life.

Products

Two HIV therapies and a promising product pipeline in oncology and hepatology. Theratechnologies is committed to people in need of new therapies where there are currently none.

A Trusted Partner in HIV

The goal shared by our team is to be a trusted partner in the fight against HIV.

Theratechnologies has a dedicated professional team throughout the U.S. comprised of: **Strategic Account Managers, Key Account Managers, Medical Science Liaisons, Community Liaisons and Reimbursement Specialists**, whose role is to ensure that we meet and exceed the needs of the HIV Community and Healthcare Providers.

Education and Awareness

To this end, we invest in people, raising awareness about HIV treatment and prevention, while providing support to everyone involved in improving the lives of patients.

Together We Can Make A Difference

Theratechnologies is driven by strong values, a deep commitment to the HIV community, and an ultimate goal to end the HIV epidemic TOGETHER.
